Contact no: 9483133094

"Learn to save lives – gain hands-on skills in CPR, AED use, and airway management with our Basic Life Support (BLS) Training."

About the course:

The Department of Casualty Training for PG studies and the Postgraduate Department of Shalyatantra, in Association with Future Simulations, are conducting a Hands-on Training certification course on Basic Life Support for Interns, PG scholars, Faculty and AYUSH practitioners.

Basic Life Support (BLS) is the cornerstone of emergency care, emphasizing the early recognition of cardiac arrest, immediate initiation of cardio-pulmonary resuscitation (CPR), and safe use of an Automated External Defibrillator (AED). This hands-on certificate course provides participants with practical training in CPR techniques, structured BLS protocols, basic airway management, and the effective use of AEDs. By combining knowledge with real-time practice, the course empowers learners to respond quickly and confidently in critical situations, ensuring they are equipped to make a lifesaving difference when every second counts.
